Professional Summary

Driven and innovative Frontend Developer with over 3 years of proven experience in developing dynamic and highly interactive web applications using React and modern front-end technologies. Adept at creating scalable, reusable components and implementing seamless UI/UX designs, leveraging expertise in TypeScript, MobX, and GraphQL. A collaborative team player with a keen eye for detail, excelling in Agile environments to deliver high-quality, user-centric solutions. Passionate about staying at the forefront of web development trends, constantly learning, and contributing to the creation of cutting-edge applications that enhance user experiences.

Skills

- ReactJS
 - TypeScript
 - JSX
 - State Management
- Mobx
 - Lodash
 - GraphQL
 - Ant Design
 - SCSS
- Jira
 - HTML
 - CSS
 - JavaScript

Experience

- Front End Developer

Astra Graphia Information Technology, North Jakarta, Indonesia

May 2022 - Current

 - Contributed to the development of internal web applications using React with MobX for state management and GraphQL as a data query service, ensuring seamless performance and scalability.
 - Designed and implemented reusable components to enhance development efficiency, maintain code consistency across projects, and maintain a cohesive design system.
 - Collaborated with the UI/UX team to design and develop new components, building a cohesive React UI library using Ant Design to enhance the user experience.
 - Collaborated with the Backend team to integrate GraphQL APIs, delivering robust and efficient data flow between services.
 - Worked alongside QA teams to uphold rigorous testing standards, ensuring the delivery of high quality applications that align with business objectives and maintain seamless workflows, achieving a 99% bug-free performance in production.
 - Actively participated in Agile development processes, completing sprint tasks on time and contributing to the success of Astra International’s strategic projects.
- Junior Front End Developer (Internship)

PT. Dapur Aplikasi Digital, South Jakarta, Indonesia

June 2021 - October 2021

 - Built responsive and interactive front-end applications using HTML, CSS, and JavaScript to deliver seamless user experiences.
 - Developed a dynamic template engine using Django to simplify content management and improve development workflows.
 - Successfully presented the application's progress and features to senior developers, gaining recognition for

technical contributions and proactive communication.

Education

Bachelor's Degree: Information System
3.51/4.00 - Gunadarma University,
Depok, Indonesia

September 2021

Certification

- React Basic (HackerRank)
- The Complete JavaScript Course 2024: From Zero to Expert! (Udemy)
- Web Development (Sololearn)
- React Front to Back (Udemy)
